NEW DOTCOMS FOR DESIGN

Check out these new online portals for design lovers

MAIOLICA.AE

Maiolica is a newly launched e-commerce platform for handmade Mediterranean homeware featuring the style that dates back to the Renaissance period. The online store takes its name from Italian tin-glazed maiolica pottery, often decorated in colours on a white background, sometimes depicting historical and mythical scenes.

Founded by Dubai-based Italian duo Marianna Piccolo and Arianna Posenato, Maiolica offers beautiful authentic products for the dining table from artisans in Italy and Portugal.

Clay bead chandeliers handmade by women in Kwazulu Natal, South Africa

HAUTÉBOHÉME.AE

Haute Bohème is a new online boutique with a curated collection of high-end bohemian and luxe island-style home décor sourced from crafters around the world.

HELMII + HOUSE OF HAWKES

Helmii, the UAE's first online customised furniture store, has collaborated with interior designer Kathryn Hawkes, founder of House of Hawkes, to design and manufacture a stylish new bed with removable covers for the entire frame. Offering versatility in design from a traditional upholstered headboard, these easy to exchange washable and dry-cleanable covers offer great new options. The launch collection is in a limited edition range of colours. The soft, washable, textured linen and cotton blend covers are available in off-white, beige, grey and dark grey, while the polycotton dry-clean-only covers are available in cream, parchment, stone, grey, turquoise and sorbet pink. Founder of helmii Simon Moore said: "We love the colours selected for the launch range and are already planning the next collection, which will offer a completely different mood and feel, incorporating some beautiful velvet options in deeper colours."
