Middle East

Welcome

I can't believe that it's the last month of 2019, and that time of the year when gingerbread man cookies and wine cakes will fill up my kitchen and of course my office desk. Bring it on!

The December edition is one of my favourites, as we work on 'Creative 30' saluting the powerful and influential leaders of design and architecture. It's a must-read! This month, the cover story features young and dynamic Philippe van der Loo, managing director of Quooker Emirates, as he discusses his plan of action in his new role.

Other exciting reads include an OP-ED piece by Sara Sheikh Akbari from Zaha Hadid Architects on Bee'ah's AI-powered headquarters in Sharjah. In the interview section, we have Cameron Fry from Liqui Group, as he talks about how the design of a coffee joint impacts its customers.

Roma Arora
Ho ho ho!

This time, I am falling for the colourful tableware collection by Maiolica. I am putting my X-mas stockings at my door. Santa, are you reading this?
